

RESOLUTION AUTHORIZING EHRLICH TO  
SEEK EXTENSION OF DATE OF  
APPLICABILITY OF SECTION 1006(a)(3)

WHEREAS, the need for the "studies" of existing support center activities contemplated by the resolution of the Board adopted at its September 8-9 meeting continues; and

WHEREAS, the failure of the Community Services Administration to respond affirmatively to the Corporation's request to forward-fund existing support centers until June 30, 1976, may make it difficult or impossible to complete the contemplated study in time for April 1 funding decisions without unnecessarily disrupting the provisions of legal services to eligible clients,

RESOLVED, that the President of the Corporation is authorized, on behalf of the Corporation, to seek and support legislation postponing the effective date of Section 1006(a)(3) of the Legal Services Corporation Act up to and including December 31, 1976, if in his judgment he should determine that the necessary studies cannot be properly completed in time to make funding decisions by March 31, 1976, without disrupting the provision of legal services to eligible clients.
